MEMORANDUM FOR: Secretary of State  
SUBJECT: USSR Training for the Third World

I understand you were particularly interested in the  
USSR training for the Third World.  
I draw your attention to the summary I had prepared last  
October on the elements of Soviet and Allied presence in  
the LDCs and how it has grown over the last ten years.  
The columns for those maps inside the foldout show how  
the number of students from each country has grown over  
the last ten years as well as official presence, military  
and economic technicians and military and economic aid.
